PROFILE

Final-year engineering student in Networks and Information Systems at FST Marrakech. Experience in web and mobile development, process automation and applied AI. Seeking to support digital transformation through business applications, analytics and decision-support tools.

PROFESSIONAL EXPERIENCE

RELAX AGENCY MOROCCO – CASABLANCA, MOROCCO **01 Jul 2026 – 15 Sep 2026**

- **Full-stack Developer Intern** — Hybrid · Client: Spheralis
  - Stock and warehouse management application **deployed to production and used daily**, replacing Google Sheets; KPI dashboards to monitor operations.
  - Automated stock intake: PDF delivery note imports, product data extraction, stock updates and archiving.
  - AI agent for order confirmation via WhatsApp Business and WooCommerce synchronization.
- **TOOLS:** Spring Boot, React, TypeScript, PostgreSQL, Docker, WooCommerce API, WhatsApp Cloud API.

ÉCOLE CENTRALE CASABLANCA – CASABLANCA, MOROCCO **27 Jul 2026 – 09 Sep 2026**

- **Software Engineering Intern** — On-site · M2COVID project
  - Full-stack epidemiological simulation and decision-support application: configuring, running and comparing simulations to support infectious respiratory disease surveillance.
  - Interactive dashboards: results and indicators, simulation history and JSON exports.
  - Secure API (JWT, user accounts and roles), background computations, automated tests and continuous integration.
- **TOOLS:** Python, FastAPI, NumPy, SciPy, React, TypeScript, PostgreSQL, GitHub Actions.

CMRPI – ESPACE MAROC CYBERCONFIANCE – KÉNITRA **01 Jul 2026 – 31 Aug 2026**

- **Mobile Developer Intern** — Remote · Academic internship
  - Flutter application enabling children to report online abuse, connected to the EMC Helpline.
- **TOOLS:** Flutter, Firebase, TypeScript Cloud Functions, Figma.

PROJECTS

Smart Recruit — AI-powered interviews (1st prize, Ramadan IA Hackathon)

- Backend lead: real-time audio interviews, Whisper transcription and LLM-based answer evaluation. *FastAPI, React, OpenAI, WebSocket.*

AI RAG Agent — document question-answering assistant

- Natural-language queries over PDF, Word and CSV files, with source-backed answers. *FastAPI, LangChain, ChromaDB.*

Internship management platform — DevSecOps and AI group project

- Responsible for the React Native mobile app; group project includes an AI-enhanced DevSecOps pipeline.

EDUCATION

Engineering degree — Networks & Information Systems · FST Marrakech, Cadi Ayyad University **2024 – 2027**
DEUST diploma — Science and Technology · FST Settat, Hassan I University **2022 – 2024**

TECHNICAL SKILLS

- **Development:** Python, Java, TypeScript, FastAPI, Spring Boot, React, Flutter
- **Data & AI:** SQL, PostgreSQL, Power BI, machine learning, LLM, RAG, LangChain
- **Tools:** Docker, Git, testing, CI/CD
- **Networks & security:** TCP/IP, VLAN, Linux, CTF, Active Directory labs

LANGUAGES

French: C1 · **English:** B1

CERTIFICATIONS

- **Machine Learning Specialization** — DeepLearning.AI & Stanford (Andrew Ng)
- Cisco Networking Basics / Network Administration; Fortinet FCF Cybersecurity

AWARDS & ACTIVITIES

- **1st prize** — Ramadan IA Hackathon (Smart Recruit)
- **Top 10/200** — HackShield CTF
- **1st prize** — JEJA 2026 (AgriSmart)
- **Mentor** — RallyIA
